Staron® MED (Marine Equipment Directive) Fire Retardant
Advanced Solution for Marine Application

austaronsurfaces.com

Staron® Pharos holds **MED (Marine Equipment Directive)** certification in accordance with **IMO (International Maritime Organization)** regulations. While most shipbuilding materials are sensitive to heat and fire, Staron® Pharos meets both flammability requirements and high aesthetic demands.

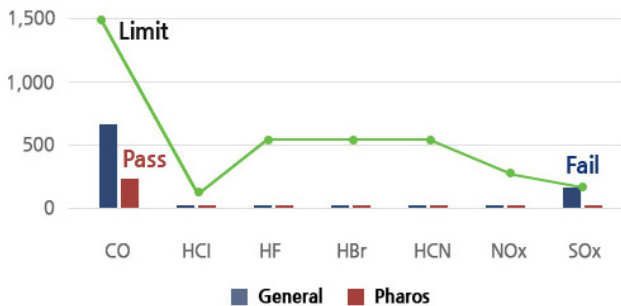

Certifications

Marine Equipment Directive (MED)

National Sanitation Foundation

Colour: Pharos
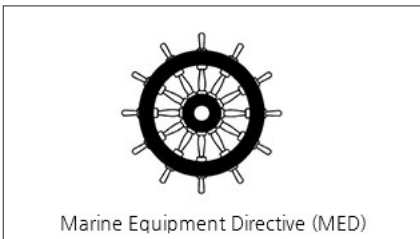

Tests

Max. Gas Smoke Density
Passed with 49.8 Dm of gas smoke density

■ General ■ Pharos

Toxic Gas Generation
Tests found 273 ppm of CO;
other kinds of gas were not found
