| <b>Pebble Collection</b> |                      |      | Seam Adhesive Use:<br>1. Store seam adhesive in a cool and dry place and away from direct sunlight.<br>2. Store in an upright position just prior to use. Check correct colour for material used.<br>3. Ensure all areas have been cleaned with methylated spirits and your hands are washed.<br>4. Remove safety nozzle and ensure openings are clear of any blockages by inserting a probe especially in smaller tube.<br>5. Squeeze a small amount to ensure both components flow smoothly and evenly.<br>6. Put on nozzle tip, screw locking nut on tightly and run several small beads as a test.<br>7. Always run beads over the top of existing beads to ensure a proper mix. Never run beads side by side as trapped air pockets can cause failure.<br>8. If adhesive is left for a while always squeeze a small amount out before continuing. |                  |      |
| Pebble Boulder           | P/Boulder            | 50ml |  |                  |      |
