ABOUT Acrylic Couture®

Acrylic Couture® is acrylic glass – in a completely new light: Intoxicating effects through extravagant inlays and artistic colour combinations. Whether luxurious, mystical, refined, graceful or spectacular – through the interplay of the finest acrylic glass and exclusive, selected materials that are made in Italy. Designs are created of unprecedented appearance, depth and *magic*.

The highlight for the senses is achieved through unique nanoparticles in the acrylic glass. In the presence of either natural or artificial light, this extraordinary material composition makes it possible to achieve intensely radiant effects and thereby create the perfect setting for shine & shimmer, light & shade, colours & shapes.

Available in a selection of patterns and colours, and for endless projects for a stunning feature. Acrylic Couture® is comprised of the highest quality acrylic glass, it has been modified with special nanoparticles for the extremely efficient scattering and reflection of light. It also features *cross-linked* polymers for higher resistance to scratching. Acrylic Couture® has a 30-year guarantee on UV resistance / weathering and a 100-year guarantee based on very high molecular density against polymer degradation.

ABOUT Austaron Surfaces

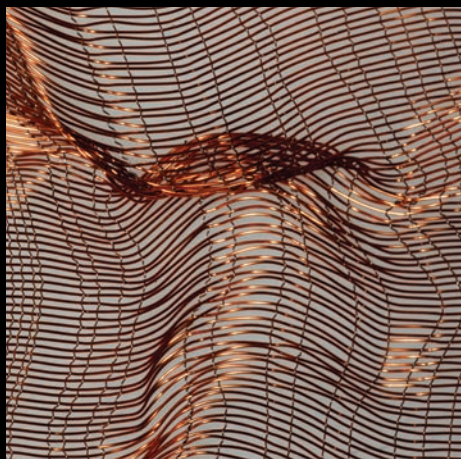

Austaron Surfaces are the proud Australian distributors of Acrylic Couture®. The business was established over fifteen years ago, with an aim to provide quality surfaces and finishes to the Australian market. cancello

Dazzling light penetrates the intermingling network structures of CANCELLO. Here, the fine metal fabric create countless wandering, wave-like shapes. Light reflections hypnotise the eye of the observer. The irresistible attraction of CANCELLO is created by the simultaneous juxtaposition of the organically flowing visual appearance of the material.

Design by: Restaurant ZweiSinn – Meiers Bistro Fine Dining.
Planning: Pfriem Innenarchitektur.

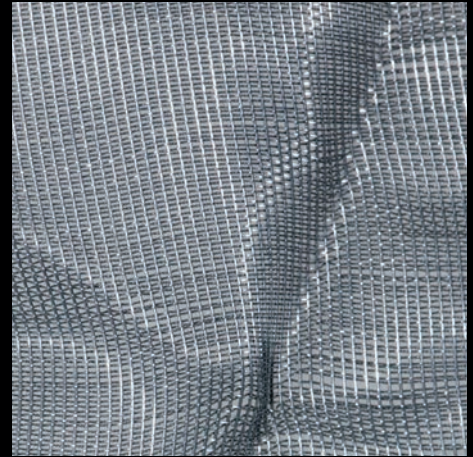

cangiante

Finer metal fabrics interlaced and woven in various ways give rise to CANGIANTE. The light folds in the tissue to produce spectacular, three-dimensional effects, similar to silky mountains of fabric that appear to dance.

etoile

The distinguishing characteristic of the ETOILE collection is its structure and dazzling shimmer. Gentle but effective sweeps in the metal fabric and the translucency of the material evoke an intense impression of depth. The illuminated cast acrylic sheet appears to be a landscape animated by magicians that has been left to its own devices – unique, refined and radiantly beautiful.

zendado

In perfect symmetry, quiet and harmonious, ZENDADO is permeated by graceful reflections of light. Light and shade enter into a stable romance. Eternal structures appear to shine in this material. Elegant, classical, timeless - a pure, luxurious metallic look.

lizard

Gentle reflections of a snake-like skin imprint create LIZARD. Refined movements and sensual shapes characterise the fine embossing of this graceful, nature inspired fabric. Seemingly hidden, the delicate nuances shine through sensual, graceful flare and passion. Airy lightness combines with striking patterns to create this inspirational material.

Design by: MKN Kitchens, Brisbane.

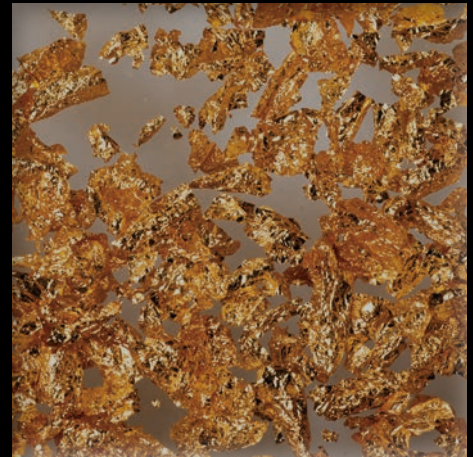

fiocchi

The lightness of illusion with apparent weightlessness. The metal flakes float around like small mountain ranges, rock formations and mica. We have captured them in crystal clear or transparently tinted acrylic glass. Each contour line gives rise to shimmering landscapes within. An exhilarating spectacle that creates an illusion to the eye.

malachite

Forgotten worlds, beautiful colour compositions, fluffy textures and delicate silhouettes - forming the essence of MALACHITE. The delicate and contrasting lines appear as they would on a finely polished gem. This creates impressive contours, silhouettes and formations which might stem from a painting of the ocean tides.

vento

So close to heaven. A gentle breeze, frozen for all time in acrylic glass. Made visible by feathers that appear to float in space. This stunning design is almost a work of art in itself. It represents the culmination of our new collection of acrylic glass, which is our individual concept of glamour.

ALLURE COLLECTION

Ecstatic attraction. Magical embroidery is creeping over gently flowing and precious metallic organza. Charmed, meandering paths and secret corners allow the gaze to roam and give wings to the imagination. Like this, majestic arabesques and glamorous ornaments are created and enchant the beholder as in oriental fairy tales.

custom design

“Take the path no one has ever been so you can be certain you’ll leave a visible trail, and not just churn up the dust”,
Antoine de Saint-Exupéry.

Success – a question of the right combination: Where skill and imagination meet, curiosity arouses creativity, innovation provides opportunities. Together we break new ground, dare to create surprising settings, repeatedly causing the observer to marvel at our creations – that is our unifying mission.

Create new design worlds together with us. Custom designs can be created to suit the needs of your project, small-scale series and prototypes – explore everything that is possible with cast acrylic!

Why not take advantage of the potential that Acrylic Couture® has to offer? Numerous well-known clients have already carried out spectacular custom designed projects and have created striking presentations of their company with unique special designs.

colour modification à la carte

With colour modification, you get the opportunity to personalise the designs of the Acrylic Couture® collection according to your wish and the special requirements of your project. A fascinating upgrade, which increases the possibilities of application in an extraordinary, versatile and exceptional way.

By admixing high-quality colour-pigments into the acrylic, a translucent coloring of the sheets is achieved. To modify the designs of our collection, we provide you 7 selected, transparent colour shades which give you the opportunity to modify the designs of our collection according to your wish.
