austaronsurfaces.com

For Pioneers in Interior Design

The benefits of a **natural experience** for the interior.
Discover the sustainable **natural surfaces** and
highlights of the **Organoid®** collection.

ORGANOID PURE FEELINGS

Inspired by Nature

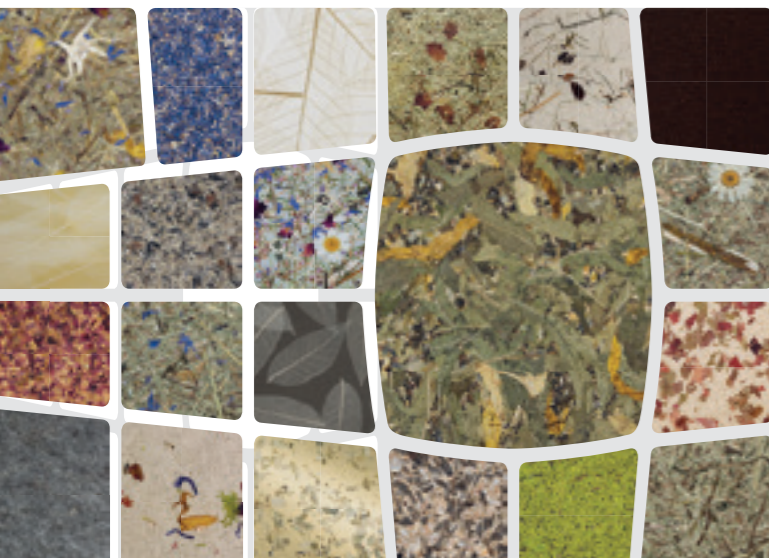

Organoid® connects, what belongs together: **humans and nature**. Because nature is important for our **health and wellbeing**, even in our modern world. With the **natural materials** by Organoid®, you create a **sustainable interior design**.

DESIGN MEETS FUNCTIONALITY

See. Feel. Smell.

The products of Organoid® are an **experience** for your **senses**. They are untreated and therefore retain all their natural properties: **look, texture and fragrance**. This creates **emotions and memories**. The wallpapers and veneers contribute to an **atmosphere of wellbeing** and a **healthy indoor climate**.

COLLECTION

Organoid® Natural Surfaces

Discover numerous materials for sustainable interior concepts in the **Organoid® collection** – from A like Alpine hay to Z like zesty lemon verbena. The natural surfaces are suited for countless **applications** in modern interior design.

translucent self-adhesive foil as a privacy screen

breathable wallpaper

veneers for interior construction

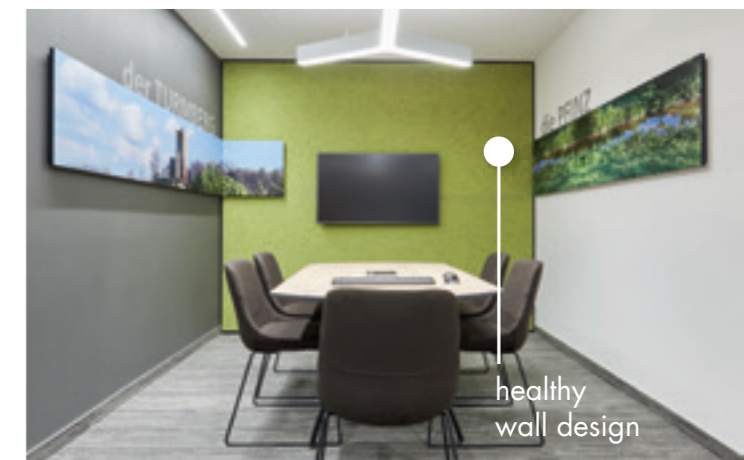

sealed flooring (class: 32)

sensory experience

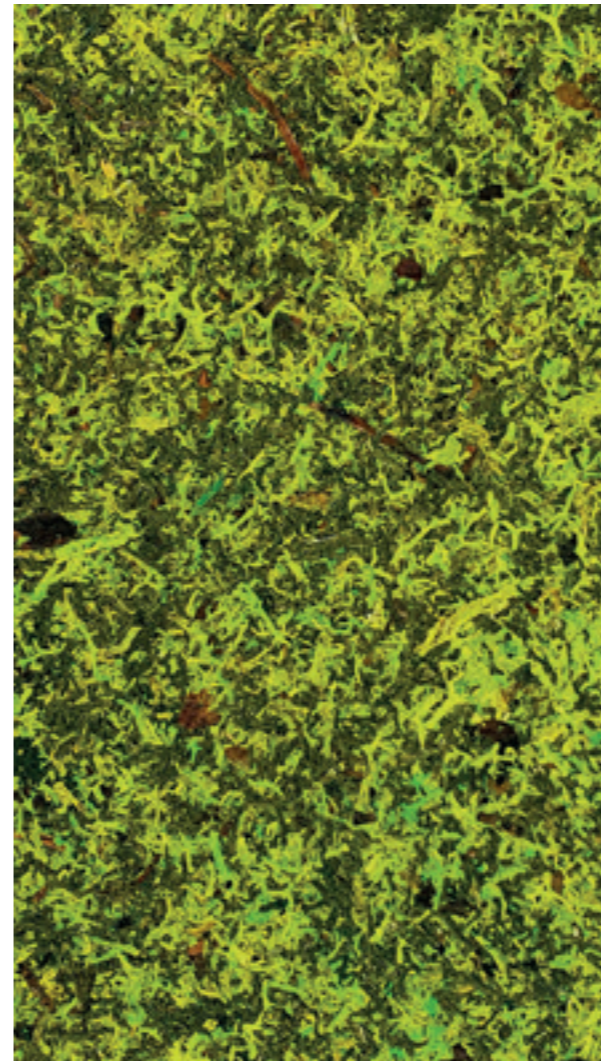

ALMWIESN

Fragrant Tyrolean Alpine hay with marguerites and colourful flower petals

KORNBLUAMA BLAU

Bright blue cornflower petals

MOUS MIX

An upcycled mix with dark & light green moss

SKELETTBLATTLA

Delicate skeletonized rubber tree leaves on translucent self-adhesive foil

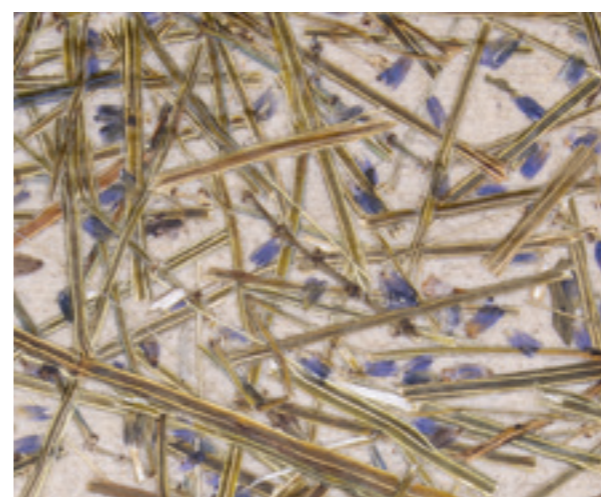

HOPFN medium

Softly shimmering hop blossoms on golden paper

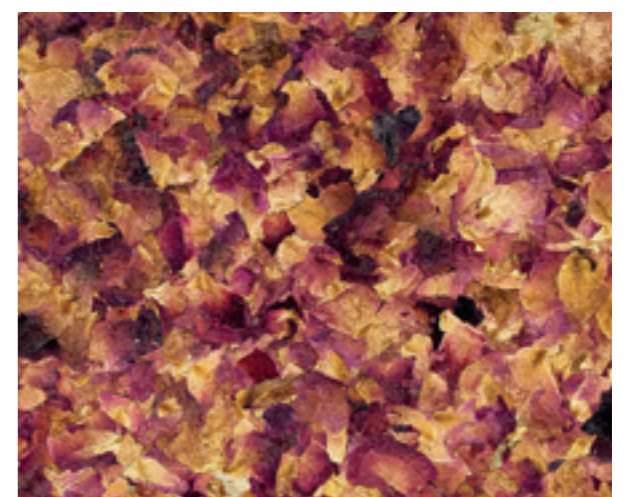

Did you know?

Our hay surfaces are **allergy friendly**, the self-adhesive foil is **free from PVC** and a large part of the collection is **hardly flammable** in accordance with EN ISO 13501-1. Find technical data, certificates, manuals, texture maps, tender specifications and more about the products at www.organoids.com.

LAWENDL medium

Fragrant lavender stems and blossoms on breathable flax backing

ROASNBLIATN

Luxuriously fragrant rose petals

Lived Sustainability

With Organoid® products, you support **local agriculture** and use **natural resources** that would otherwise be discarded.

- ✓ Direct trade with farmers
- ✓ Renewable materials
- ✓ Upcycling of leftovers
- ✓ Fully carbon-neutral

When working with Organoid®, you have a reliable partner at your side. We understand **sustainability** and are **certified** to implement it.

Exclusively distributed by

AUSTARON SURFACES

Founded in Australia in 2003, Austaron Surfaces is a people-driven company, renowned for excellent service and an appreciation of connections made along the project journey. With a personable enthusiasm, our team strives to support clients in their pursuit of product knowledge and assistance for a quality project outcome.

Offering a collection of high-quality surfaces, our brands are innovative and award-winning. Locally owned and operated in Australia and New Zealand, our product range offers both visual excellence and a solution-oriented outcome to the building industry.
