# acrylic couture®

Based in Germany, Acrylic Couture® is a very boutique brand created by Oliver Paatz and Nicole Seidel. Passionate about producing the best of the best for creating beautiful decorative acrylic panels that encase stunning fabrics. Partnering with Antonio Di Gregorio, a well-respected Bulk free radical polymerization expert and all-round great guy for the manufacture of this stunning product.

Antonio works with friends Nicole and Oliver and manufacture these stunning panels in Italy. Antonio's knowledge also sees him involved in the creation of acrylic components for the medical industry for necessary implants. This hand-crafted product should not be compared to any mass production of any "similar" products one may be more familiar with.

"All ingredients of acrylic couture panels are neither carcinogenic, nor mutagenic and thus nonhazardous to health. It does not contain any substances/chemicals, which are listed on the dangerous R.E.A.C.H. and SVHC-regulation, our acrylic is manufactured without the use of any plasticizer, particularly no phthalates. Silicone-free and eco-friendly, as panels are produced in a low, energy consuming way and is recyclable."
