- » Surface Care & Maintenance

### Sustainability

- » Natural Materials for Sustainable Interior Design

### Tender Specifications

- » Organoid Tender Sheets

### Data & Specifications

- » Organoid Flooring Data Sheet

### Installation Recommendations

- » Organoid on Natural Flax Backing & Ecofleece
- » Organoid on Golden Paper
- » Organoid on Flexi Fleece
- » Organoid on Self-Adhesive

Organoid® Technologies GmbH is a prosperous and innovative company from Austria/Europe. The company's philosophy is to produce natural surfaces in an eco-friendly and sustainable way.

Using only natural and authentic locally sourced raw materials. "With our factory located in the Tyrol - in the heart of the Alps - attention is given to ecological and sustainable manufacturing. This begins with the use of 100% green electricity and ends with our biological binders that are free of biocides, plasticizers, and solvents."

The organoid surfaces are practically emission-free, allergy-tested, ecological and harmless to health, climate regulating and are produced in Tyrol, Austria in a climate-positive manner.

Organoid is both a Carbon Neutral Company and Product certified Climate Partner.
