## AMBILOOM® MIRROR

The Ambiloom® Mirror collection includes modern wall mirrors in three different formats with ambient lighting as an additional function.

For this visual to be achieved, the composite of high quality, translucent mirror glass and unique lighting fabric, is backlit by LEDs integrated on the back plate.

The lighting scenario unfolds via a touch sensor integrated into the aluminum frame. Three-dimensional light lines shine on the surface of the mirror. These give interiors optical depth and a special atmosphere. When switched off, the mirror image is clear.

## AMBILOOM® PENDANT

The Ambiloom® Pendant is a ceiling-mounted pendant luminaire with a textile surface. In addition to a functional downlight, the luminaire also has ambient lighting.

The pendant lamp impresses with its textile surface, functional downlight and ambient lighting effect.

For a more subtle effect, the luminaire is operational without the inclusion of a light bulb and harmoniously blends into various interiors.
