

Staron® MED (Marine Equipment Directive)
Fire Retardant
Advanced Solution for Marine Application

Staron[®] Pharos holds **MED (Marine Equipment Directive)** certification in accordance with **IMO (International Maritime Organization)** regulations. While most shipbuilding materials are sensitive to heat and fire, Staron[®] Pharos meets both flammability requirements and high aesthetic demands.

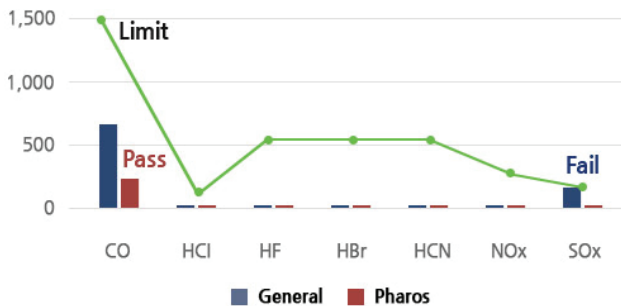

Certifications

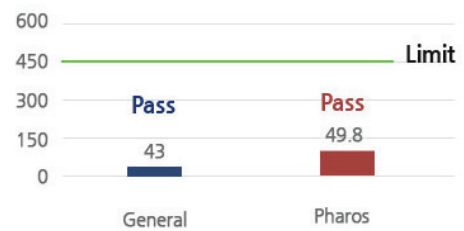

Tests

Max. Gas Smoke Density
Passed with 49.8 Dm of gas smoke density

Toxic Gas Generation
Tests found 273 ppm of CO;
other kinds of gas were not found
